2		FY 2014 Settlements with SEPs (10/1/2013 - 9/30/2014)							
3		Case Number	Case Name	Enforcement Action Type	Final Order Issued/Entered	SEP Category	SEP Description	Total Cost of SEP	EPA Penalty Assessed Amount
4	1	01-2012-1722	COLD STORAGE SOLUTIONS	CAA 113D1 Action For Penalty	05/15/2014	Emergency Planning and Preparedness	The SEPs are designed to a) reduce the likelihood of a release of anhydrous ammonia from Respondents' four facilities and to limit the severity of any ammonia release that might occur by requiring Respondents to install various protective features and equipment at the facilities, and b) enhance emergency response capabilities in the communities surrounding the facilities by requiring Respondents to provide equipment to local and regional first responders, thereby improving the safety of responding personnel and the community and the health of the environment.	\$345,759	\$108,000.00
5	2	01-2013-1003	METAL FINISHING TECHNOLOGIES	CAA 113D1 Action For Penalty	02/19/2014	Pollution Prevention/Raw Materials Substitution	The SEP will involve the replacement of chlorine with less toxic sodium hypochlorite in Respondent's cyanide destruct process. The SEP will pay for the equipment associated with that changeover (such as pumps, two 3,000 gallon holding tanks for sodium hypochlorite, and level sensors) . Respondent currently uses 4000 pounds of chlorine per week, which means that the use of 208,000 pounds of chlorine per year would be avoided	\$54,000	\$12,400.00
6	3	01-2014-2526	FALL RIVER CITY OF	CAA 113D1 Action For Penalty	09/30/2014	Pollution Prevention/Raw Materials Substitution	The Fall River water treatment facility is located in area that according the EPA's EJSCREEN application, ranks above the 80th percentile of all block groups nationwide in the primary EJ index for five of the environmental factors. The SEP eliminates the use of chlorine in this populated area. The respondent will implement a SEP that will make the community safer by eliminating the facility's use of chlorine gas and substituting sodium hypochlorite. The Cost of the SEP will be approximately \$449,000.	\$449,000	\$5,000.00

	A	B	C	D	E	F	G	H	I
3		Case Number	Case Name	Enforcement Action Type	Final Order Issued/Entered	SEP Category	SEP Description	Total Cost of SEP	EPA Penalty Assessed Amount
7	4	01-2013-0503	HARBOR FUELS CORP (SB)	CWA 311B6B2 AO For Class II Penalty	11/26/2013	Emergency Planning and Preparedness	Emergency Planning & Preparedness SEP	\$37,940	\$14,000.00
8	5	01-2014-2527	GLOUCESTER MARINE RAILWAYS CORP	CWA 309G2B AO For Class II Penalties	09/30/2014	Environmental Compliance Promotion	Environmental Compliance Promotion SEP to raise awareness in maritime community of CWA requirements that apply to boatyards, marinas and private boat owners.	\$30,000	\$20,000.00
9	6	01-2013-1706	NORTHEASTERN SHAPED WIRE INC	EPCRA 325 Action For Penalty	03/04/2014	Pollution Prevention/Equipment-Technology Modification	The CAFO requires Respondent to perform Supplemental Environmental Project ("SEP") worth \$26,625. In order to complete the SEP, Respondent will (1) purchase and install a state-of-the-art fixed ammonia detection and alarm system at the facility and operate it for at least three years; and (2) purchase a handheld ammonia detection system.	\$26,625	\$5,626.00
10	7	01-2014-3501	FIBER MATERIALS INC	EPCRA 325 Action For Penalty	09/30/2014	Emergency Planning and Preparedness	In order to complete the SEP, Fiber Materials will purchase and donate emergency response equipment to the Biddeford Fire Department for its use during emergency response activities. The equipment includes (a) specialized equipment to aid responders in entering confined spaces (such as chemical tanks); (b) a gas detection unit that includes sensors to measure the levels of various gases in the air so that responders do not enter without appropriate protection; and (c) air cylinders that will increase the amount of time that responders may safely spend responding to emergencies in an immediately dangerous to life and health ("IDLH") atmosphere.	\$13,240	\$6,935.00
11	8	01-2013-5003	UNITED ABRASIVES	RCRA 3008A AO For Comp And/Or Penalty	09/30/2014	Pollution Prevention/Equipment-Technology Modification	Respondent will acquire equipment to eliminate generation of waste epoxy resins.	\$99,819	\$26,619.00

3		Case Number	Case Name	Enforcement Action Type	Final Order Issued/Entered	SEP Category	SEP Description	Total Cost of SEP	EPA Penalty Assessed Amount
12	9	01-2013-7001	WOODSTOCK INN	TSCA 16 Action For Penalty	03/04/2014	Pollution Reduction	Lead-based paint renovation project in target housing	\$7,359	\$6,341.00
13	10	01-2014-7001	MY VAN NGUYEN & XEM THI LE	TSCA 16 Action For Penalty	09/29/2014	Pollution Reduction	Respondents will complete a lead-based paint abatement SEP within two years of the date of the Final Order. The lead-based paint abatement SEP consists of replacing window, door and wood siding, and other lead abatement work at Respondents' properties located at 47-49 Savin Hill Avenue, 37-45 Neponset Street, 114 Sawyer Avenue, 156 Ballou Avenue, and 6-8 Westville Terrace, Dorchester, Massachusetts. These components contain lead-based paint.	\$97,977	\$10,887.00
14	11	02-2012-1220	PFIZER PHARMACEUTICALS, LLC	CAA 113D1 Action For Penalty	05/08/2014	Pollution Reduction	Pfizer has agreed to purchase equipment and vehicles for the Municipality of Barceloneta to establish and implement a Waste Recycling Program citywide.	\$410,000	\$318,000.00
15	12	02-2012-1220	PFIZER PHARMACEUTICALS, LLC	CAA 113D1 Action For Penalty	05/08/2014	Pollution Reduction	Pfizer has agreed to purchase equipment and vehicles for the Municipality of Barceloneta to establish and implement a Waste Recycling Program citywide.	\$410,000	\$318,000.00
16	13	02-2010-3358	MUNICIPALITY OF CULEBRA	CWA 309G2A AO For Class I Penalties	09/08/2014	Pollution Reduction	The Municipality of Culebra is required to design, develop and implement the connection of approximately thirty five to forty (35-40) individual residences to the Puerto Rico Aqueduct and Sewer Authority (PRASA) sewage collection system	\$41,800	\$3,200.00

3									
17	14	02-2011-0010	CEMEX CONCRETOS, INC. ET AL.	Civil Judicial Action	07/23/2014	Environmental Restoration and Protection	Donation of 401 acres of land located in Puerto Rico's North Karst region to the Department of Natural Resources for conservation into perpetuity. The land will provide significant environmental benefits since it possesses extraordinary ecological diversity, including the habitats of several endangered and threatened species and tropical migrants, tropical forests and critical aquifers and watersheds that serve as one of the principal water sources for Puerto Rico. The area is of critical value to research in tropical forest management.	\$2,360,000	\$360,000.00
18	15	02-2012-3310	OTSEGO AUTO CRUSHERS, LLC	CWA 309G2A AO For Class I Penalties	10/28/2013	Pollution Prevention/Product Reformulation/Redesign	Respondent shall install a diversion swale around the perimeter of the Site. An existing swale that bypasses the southwest portion of the Site and existing retention pond will be removed. The diversion swale will be sized to promote substantial infiltration of stormwater to groundwater and shall sufficiently hold, at a minimum, the ten-year storm. The swale shall be approximately 1,700 feet in length and 3 feet in depth. The bottom of the swale will be approximately 2 feet in width. The swale shall also include crushed stone check dams and shall be stabilized per the construction specifications submitted to EPA.	\$33,924	\$2,059.00
19	16	02-2013-3310	TOWN OF HEMPSTEAD	CWA 309G2A AO For Class I Penalties	08/04/2014	Environmental Restoration and Protection	Western Bays Sewershed mapping	\$16,000	\$8,911.00
20	17	02-2013-3401	ATLANTIC FUNDING AND REAL ESTATE, LLC ET AL.	CWA 309G2B AO For Class II Penalties	04/29/2014	Pollution Prevention/Process-Procedure Modification	Bioswale and Rain Garden	\$68,342	\$50,000.00

3									
21	18	02-2013-3454	LANDFILL TECHNOLOGIES OF FAJARDO, INC.	CWA 309G2B AO For Class II Penalties	05/09/2014	Pollution Reduction	The project will document by means of empirical experimentation the effectiveness of vetiver grass (Vetiveria zizanioides, L.Nash) to decrease the amount of liquids generated in the Fajardo Municipal landfill, as an erosion control and slope stabilization tool, and to generate guidelines for designing and building similar systems in other landfills in Puerto Rico and elsewhere in tropical and subtropical settings. This SEP will implement the recommendations set forth in the phytoremediation of leachate, erosion control and slope stabilization with Vetiver project developed by Dr. Luis Perez-Alegria of the Agricultural and Biosystem Engineering School of the University of Puerto Rico, Mayaguez Campus, in Puerto Rico.	\$108,000	\$20,000.00
22	19	02-2014-4203	REVERE SMELTING AND REFINING CORPORATION	EPCRA 325 Action For Penalty	09/29/2014	Pollution Prevention/Improved Housekeeping/O&M, Training, Inventory Control	Revere will enclose three sides of the bottom section of the slag reverberatory baghouse (SRF) with an enclosure of metal decking material sealed at the top and bottom with foam closer strips and caulking. The panels will be 13 feet high by 66 linear feet. This second layer of containment will reduce the risk of any future releases of lead to the community by adding another layer of prevention during maintenance activities or in the event of unpredicted releases of baghouse dust. The walls will act as a windbreak and partial containment of the hoppers, slide gates and conveyers so that any lead dust that may escape the equipment does not readily become airborne, and thus cleaning would be able to be initiated prior to any environmental release.	\$55,000	\$15,750.00
23	20	02-2009-0036	SUFFOLK COUNTY, NEW YORK	Civil Judicial Action	02/24/2014	Environmental Restoration and Protection	Suffolk County shall implement a Land Acquisition and Environmental Restoration Project SEP for the purpose of protecting groundwater in Suffolk County's Sole Source Aquifer from discharges of pollutants.	\$1,500,000	\$500,000.00

24	21	02-2012-7106	W.R. RECYCLING, INC. (SB)	RCRA 3008A AO For Comp And/Or Penalty	06/11/2014	Pollution Prevention/Equipment-Technology Modification	Purchase and use of equipment to more completely and effectively collect waste fluids from vehicles prior to crushing, including built-in secondary containment. The equipment goes above the RCRA requirements and common practice in PR, and increases the amount of such fluids that are suitable for recycling. The SEP also includes the addition of a roof over crushing and storage areas, as well as significant improvements to runoff control and collection.	\$133,000	\$28,735.00
25	22	02-2012-7106	W.R. RECYCLING, INC. (SB)	RCRA 3008A AO For Comp And/Or Penalty	06/11/2014	Pollution Prevention/Equipment-Technology Modification	Purchase and use of equipment to more completely and effectively collect waste fluids from vehicles prior to crushing, including built-in secondary containment. The equipment goes above the RCRA requirements and common practice in PR, and increases the amount of such fluids that are suitable for recycling. The SEP also includes the addition of a roof over crushing and storage areas, as well as significant improvements to runoff control and collection.	\$133,000	\$28,735.00
26	23	02-2013-7108	CITY OF BUFFALO	RCRA 3008A AO For Comp And/Or Penalty	06/11/2014	Pollution Prevention/In-Process Recycling	The City of Buffalo will implement a program to recycle or otherwise arrange for the proper disposal of fluorescent lamps, E-waste, and household hazardous waste by collecting these items from city residents. The recycling program will include holding nine community based recycling events in each of the nine Common Council districts in the City of Buffalo.	\$79,100	\$21,094.00
27	24	02-2009-9204	CITY OF NEW YORK, ET AL.	TSCA 16 Action For Penalty	04/07/2014	Pollution Reduction	Removal and Disposal of PCB Transformer	\$37,095	\$24,275.00

57	53	05-2014-5019	ANDRES & WILTON FARMERS GRAIN & SUPPLY	CAA 113D1 Action For Penalty	04/07/2014	Pollution Prevention/Energy Efficiency-Conservation	Respondent will replace an HVAC system at the Peotone Park District Daycare Center in Peotone with a more energy efficient system that has zoned heating and a MERV 8 filter to aid in the removal of spores, dust mite debris, cat and dog dander, and other small particles. The Daycare Center is located in close proximity to the Facility and the SEP project is intended to reduce the amounts of CO2, PM, SO2, VOCs, and NOx entering the atmosphere.	\$80,000	\$40,000.00
58	54	05-2014-5045	JOHNSON CONTROLS BATTERY GROUP INC	CAA 113D1 Action For Penalty	08/19/2014	Pollution Prevention/Equipment-Technology Modification	Replacing oil mist filters with new baghouse with secondary HEPA filters.	\$229,183	\$42,135.00
59	55	05-2014-5050	RADIAC ABRASIVES, INC	CAA 113D1 Action For Penalty	08/15/2014	Pollution Prevention/Process-Procedure Modification	Radiac is required to implement a pollution prevention SEP to eliminate at least 10 percent of the naphthalene utilized in their process. Specifically, the project will require the company to utilize an alternative pore formers in place of naphthalene which will allow for a viable, salable product.the SEP will reduce 180 pounds of naphthalene per year, in addition to small reductions of natural gas combustion emissions at the thermal oxidizers of nitrogen oxides, carbon monoxide and carbon dioxide.	\$95,000	\$108,000.00
60	56	05-2014-5058	CELANESE CORP. (FORMERLY NATIONAL STARCH AND CHEMICAL CO.)	CAA 113D1 Action For Penalty	09/25/2014	Pollution Prevention/Energy Efficiency-Conservation	At a cost of \$175,000, Celanese will replace six conventional gasoline vehicles operated by the City of Springfield, Illinois (Celanese is about 30 miles away to the west) with plug-in electric vehicles. The conventional vehicles will be scrapped as part of this projection. Of particular note, over 12 years, the SEP is expected to achieve reductions of over 304,000 pounds of greenhouse gas emissions.	\$175,000	\$380,000.00

61	57	05-2014-5070	OLIN CORPORATION (WINCHESTER AMMUNITION)	CAA 113D1 Action For Penalty	09/26/2014	Public Health	The SEP involves treating lead emissions from other units at the Facility that do not require pollution controls. The emissions from those units will be vented to a baghouse with a HEPA filter that will result in reductions of lead and particulate matter emissions of at least 94%.	\$38,103	\$110,000.00
62	58	05-2014-7243	SCHOEP'S ICE CREAM CO. (MADISON) CAFO	CAA 113D1 Action For Penalty	12/20/2013	Pollution Prevention/Equipment-Technology Modification	By 1/15/2014, Respondent will install a new pump out piping system, to its existing refrigeration system, that ties into the wet suction system and limits the loss of ammonia during both routine and emergency maintenance operations. Ammonia gas which was previously vented will recirculate back into the refrigeration system and thus reduce some of the load to the City's industrial sewer system as well as reduce the potential risk of ammonia release from the refrigeration system.	\$27,000	\$9,000.00
63	59	05-2014-7251	STEPAN COMPANY (ELWOOD) CAFO	CAA 113D1 Action For Penalty	03/13/2014	Emergency Planning and Preparedness	Respondent must install remotely operated isolation valves (ROIVs) on both the ethylene oxide and propylene oxide liquid and vapor return lines at the railcar station, arranged to isolate the hose in the event of a hose rupture. The ROIVs will be designed to close based on ethylene oxide/propylene oxide gas monitoring and deluge system activation and also will be able to be closed manually. Respondent must also install a railcar motion detecting system that will activate the closure of the ROIVs.	\$200,000	\$21,788.00

75		05-2014-2007	INDIANA DEPARTMENT OF CORRECTIONS	RCRA 9006 AO For Comp And/Or Pen (UST) - UST Expedited Settlement Program	06/24/2014	Public Health	<p>Proposed SEP: Implementation of an Environmental Management System</p> <p>The EMS will be a system of maintaining environmental compliance with applicable regulations. The system, however, goes beyond just compliance. The EMS will also provide a system of checks and balances for the IDOC facilities. Once the IDOC is involved with the EMS, a site manager makes routine site visits to the facilities. During these site visits, all aspects of the facilities' environmental programs are reviewed, records are checked and updated, training is conducted and documented, deficiencies are recorded, reporting to appropriate agencies is completed if required, and a closeout meeting is conducted with upper management where any issues noted during the inspection are reviewed. Any issues requiring further attention are disseminated to the appropriate personnel where they are addressed.</p> <p>The EMS will check on the status of the actions conducted in the subsequent routine site inspections. Following the completion of each site visit, a formal report is submitted to the facility with written documentation as to the issues discussed in the closeout meeting. Action items and responsible parties are spelled out clearly as part of the report, as are consequences of non-compliance. All documentation for the EMS is placed on a site specific, password protected website</p>	\$135,500	\$24,500.00

110	103	10-2014-0044	FLEISCHMANN'S VINEGAR	EPCRA 325 Action For Penalty	02/26/2014	Other Program Specific SEP	Company will design and construct secondary containment around their hazardous chemicals to prevent leaks and spills from reaching the environment.	\$106,069	\$15,600.00
111	104	10-2014-0142	SEACAST, INC	RCRA 3008A AO For Comp And/Or Penalty	08/12/2014	Pollution Prevention/Equipment-Technology Modification	<p>4.13. Respondent agrees to implement a Supplemental Environmental Project ("SEP") consisting of the purchase, installation, and operation of a high pressure water blast system ("Water Blast System") for use in the metal casting cleaning process at Respondent's Marysville, Washington, facility in accordance with the schedule provided in paragraph 4.15. The Water Blast System shall be capable of removing ceramic shells from most metal cast impellers and will substantially reduce demand for caustic sodium hydroxide cleaning solutions that otherwise would be used, and thereby reduce the volume of hazardous waste generated at the facility.</p> <p>4.14. The Water Blast System shall consist of at least the following components: (1) a water blast cleaning cabinet; (2) a device for the removal of ceramic debris; and (3) a high pressure pump.</p>	\$230,000	\$18,000.00
